

**DENR Administrative Order
No. 2004 – 15
May 22, 2004**

SUBJECT : Establishing The List Of Terrestrial Threatened Species And Their Categories, And The List Of Other Wildlife Species Pursuant To Republic Act No. 9147, Otherwise Known As The Wildlife Resources Conservation And Protection Act Of 2001.

Pursuant to Sections 5 & 22 of Republic Act No. 9147 otherwise known as the “Wildlife Conservation and Protection Act”, the preliminary List of Threatened Wildlife, including their different categories, and the List of Other Wildlife Species are hereby established.

Section 1. Definition of Terms. As used in this Order, the following terms shall mean as follows:

1. Threatened Species – is a general term to denote species or subspecies considered as critically endangered, endangered, vulnerable or other accepted categories of wildlife whose population is at risk of extinction;

2. Critically Endangered Species – refers to a species or subspecies that is facing extremely high risk of extinction in the wild in the immediate future;

3. Endangered Species – refers to species or subspecies that is not critically endangered but whose survival in the wild is unlikely if the causal factors continue operating;

4. Vulnerable Species – refers to a species or subspecies that is not critically endangered nor endangered but is under threat from adverse factors throughout their range and is likely to move to the endangered category in the near future;

5. Other Threatened Species – refers to a species or subspecies that is not critically endangered, endangered nor vulnerable but is under threat from adverse factors, such as over collection, throughout their range and is likely to move to the vulnerable category in the near future;

6. Other Wildlife Species – refers to non-threatened species that have the tendency to become threatened due to predation and destruction of habitat or other similar causes as may be listed by the Secretary upon the recommendation of the National Wildlife Management Committee.

Section 2. The List of Threatened Wildlife and their Categories.

Section 4. Interpretation. In case of conflict between the scientific name and the common name in the actual application, the scientific name shall be the controlling interpretation.

Section 5. Species under more than one category. In case of conflict between the enumeration of species in this Order and the CITES Appendices, the listing in this Order shall prevail. However, for conservation purposes other than the application of penalties under Section 28 of Republic Act 9147, the higher category shall apply.

Section 6. Review and Updating of the List. The Secretary, in consultation with scientific authorities, the academe and other stakeholders, shall regularly review and update or as the need arises the herein list of terrestrial wild fauna and flora; Provided that a species listed as threatened shall not be removed therefrom within three years following its initial listing.

Section 7. Effectivity. This Order shall take effect fifteen (15) days after publication in a newspaper of national circulation.
